

What's Happening To My Country?

The answer to that question comes from my 2 year investigation to understand the reasons for the rapid decline of core American values. Widely held traditional principles seem to have been replaced by distorted concepts raising serious questions about the forces and methods driving this departure from long held beliefs.

America is facing a largely unrecognized existential threat to our democracy and our way of life. It comes in the form of a spiritual attack that has manifested itself in various deceptive forms. My paper exposes two dominant long-term strategies of Satan and convincingly demonstrates how they are destroying the founding principles of our nation.

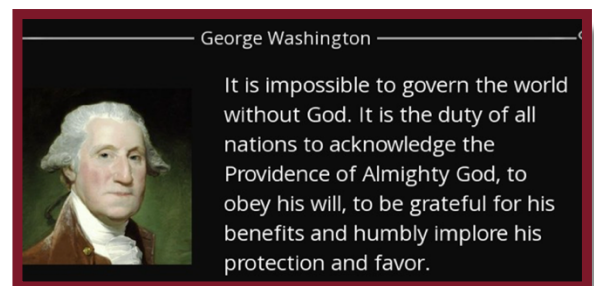

- **Strategy #1: Replace God with the State as the highest authority in public education and government institutions.**
- **Strategy #2: Replace God with personal choice and preference as the final arbiter of acceptable public behavior in media, entertainment, business, and social institutions.**

The origins of this seismic cultural shift can be directly traced to the 1960s and our public educational system. The movement away from an historically proven educational model to a progressive “educational” framework has left my generation, and all subsequent ones, ill-equipped to make wise decisions about everyday life and unable to intelligently discern right from wrong.

While the election of President Trump appears to have enormous momentum to return to more traditional conservative values, it will be short-lived. Political solutions cannot resolve spiritual issues. Satan will not be deterred from his objects and will likely go “underground”. Some of the most disturbing “achievements” of the progressive left may disappear from the headlines for a season, but do not be deceived, they will return with even greater destructive power and urgency. (Added Jan 1, 2025)

Key to this ideological shift is the growing acceptance of various forms of socialism and Marxism which despite appearing to advocate for equity and inclusion, fundamentally undermine our moral framework. These ideologies are a favorite “delivery system” of Satan intent on distorting our traditional American beliefs about truth, morality, and virtue.

Without a deliberate acknowledgment of this spiritual struggle and a reaffirmation of the foundational values that shaped our nation, we face the danger of surrendering to ideologies devoid of our Christian faith. Sadly, these ideologies have the very real potential to dismantle our cherished American dream and democratic principles.

Join me in confronting this spiritual attack and the pressing need to revive the faith based principles and beliefs held by our nation's Founding Fathers. Only by doing so can we protect our nation's unique fundamental identity and ensure its enduring existence. 1/10/2025
